

In-use barrier integrity : what's the microbial incidence of glove's pin holes on production isolators ?

- Julien Triquet Head of Global Sterility Assurance, CSL
- Vincent Rochette, Ingeneur development, ICARE

Tours // France
14 & 15 juin 2023

Context

Isolator: high degree of protection in the pharmaceutical industry
Gloves: main sources of contamination:

integrity: major problem

Pharmaceutical manufacturers should
define their own standard operating procedures
for glove testing

CHALLENGE

ICARE
GROUPE
